ABOUT ME

Greetings! I am Edgar de Almeida Dikenge, a code alchemist, passionate about bringing programs to life since 2020. Currently, I am forging my path as a tireless apprentice in the vast universe of Computer Science, navigating through the challenges and opportunities offered by the Metropolitan Polytechnic Institute of Angola.

Independent software developer with proficiency in programming languages such as JS, Python, Java, and C/C++. Proven experience in delivering innovative and effective solutions in various projects. Committed to achieving technical excellence and oriented towards creatively solving problems. Capable of collaborating with remote teams and adapting quickly to new technologies and challenges.

WORK EXPERIENCE

Software Developer, Freelancer

[Current]

Country: Angola

As a freelance software developer, I've wholeheartedly immersed myself in diverse projects, applying my expertise in vital technologies such as **JavaScript, TypeScript, Pytho**n and **Java**. My independent career has allowed me to embrace the versatility and breadth of programming, delivering effective and creative solutions in every challenge.

Software developer, Java Ecosystem

Cinapse SA [2024 – Current]

City: Luanda | **Country:** Angola

Responsible for developing robust applications using the Java and Angula ecosystem, applications such as management, CRM.

Desenvovdor de Software

Znattech [2021 – 2022]

City: Luanda | **Country:** Angola

Junior Software Developer | Specialized in Vue.js, Django, and Odoo

In my journey as a Junior Software Developer at ZnatTech, I've wholeheartedly immersed myself in exciting projects that have allowed me to apply my specialized skills in Vue.js, Django, and Odoo. Collaborating with an agile and multidisciplinary team, I've had the opportunity to turn concepts into reality and create high-quality solutions.

My experience with Vue.js has been essential in crafting dynamic and engaging user interfaces. Working closely with designers and fellow developers, I've been able to make tangible contributions to the user experience, enhancing the usability and aesthetics of the developed applications.

Instructor of Introduction to Programming Course

Formação de Quadros [08/2020 – 2022]

City: Luanda | **Country:** Angola

My journey as an instructor in the Introduction to Programming Course, part of the "Skill Development Program," was an exciting chapter in my career. Sharing my knowledge and programming experience with curious minds not only reinforced my understanding but also filled me with satisfaction. Witnessing students unravel complex coding concepts and contributing to their growth was incredibly rewarding. This experience solidified my commitment to continue growing as a developer and mentor, always eager to take on new challenges and make a positive impact.

EDUCATION AND TRAINING

Computer Science
Instituto Superior Politécnico Metropolitano de Angola [2022 – Current]

City: Luanda | **Country:** Angola

Computer Technician
Instituto Médio Politécnico Alda Lara [2018 – 2022]

City: Luanda | **Country:** Angola

LANGUAGE SKILLS

Mother tongue(s): Português

Other language(s):

Inglês
LISTENING B1   **READING** B2   **WRITING** B1

SPOKEN PRODUCTION A2   **SPOKEN INTERACTION** B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

[01/2023 – 05/2023]
Todos Podem Codar A project aimed at teaching the art of coding to other students, in order to help them learn programming and avoid dropping out of school!

[03/2024 – Current]
IMETRO DEV CLUB - IDC I am the co-founder of IDC, a student center located at IMETRO.
Our main objective at IDC is to help students learn about the immense universe of technology, offering workshops, training, mentoring so that they can choose an area of expertise in the field of technology.
